

Granted courses 2024

The following courses have been awarded funding in the Graduate School call 'WISE Course Development Call,' which closed on 2024-01-10

Course name	Applicants and responsible
NMR spectroscopy of materials, 7.5 ECT	Prof. István Furó, KTH Prof. Sergey Dvinskikh, KTH Prof. Niklas Hedin, SU Prof. Mattias Edén, SU Dr. Aleksander Jaworski, SU
Analytical Transmission Electron Microscopy for Sustainable Materials, 6 ECT	Professor Gunnar Svensson, SU Docent Tom Willhammar, SU together with Artemi (WISE) university representatives from LiU, LU, CTH, UU, KTH
Microscopic modelling for sustainable materials applications, 7.5 ECT	Danny Thonig, ORU Corina Etz, LTU Heike Herper, UU Erik van Loon, LU Alena Vishina, UU

Granted summer school 2024

The following summer school has been awarded funding in the Graduate School call 'WISE Summer School Call,' which closed on 2024-01-10

2024:

Summer School on Additive Manufacturing. Campus Norrköping 11-12 juni 2024, Uppsala 18-19 juni 2024 och Chalmers 25-26 juni 2024. Organiserare: Eduard Hryha (Chalmers), Cecilia Persson (Uppsala) och Simone Fabiano (LiU).

2025 or 2026:

Nuclear Magnetic Resonance in Materials Science for Sustainability. Stockholm area, Organiserare: István Furó (KTH) och Niklas Hedin (SU).
